

**Missouri Consolidated Health Care Plan
Response to a Vendor Question 2025 Decision Support System RFP
June 26, 2024**

This response is provided by MCHCP to a question received from a potential bidder for the 2025 Decision Support System RFP.

Question	Response
1 Please clarify how we respond to mandatory contract provisions and proposed modifications. If a provision is mandatory but we require a modification, how do we respond? Do we respond with 'not confirmed' and enter the reason we require a modification and then also provide the modification in the separate document? In cases where we can agree but want to propose a modification, do we confirm yes we can agree and still propose the modification, or is that also a 'not confirmed' with a reason?	In all cases when you are requesting a modification, please mark 'Not Confirmed' and list the modification you are requesting. Also include the modification on Exhibit A-2 Proposed Bidder Modifications.
