

Title 22—MISSOURI CONSOLIDATED HEALTH CARE PLAN
Division 10—Health Care Plan
Chapter 3—Public Entity Membership

PROPOSED AMENDMENT

22 CSR 10-3.056 PPO 600 Plan Benefit Provisions and Covered Charges The Missouri Consolidated Health Care Plan is amending section (5) and adding a new section (14)

PURPOSE: This amendment adds diabetes education visits to the services paid at one hundred percent (100%) when provided at a network provider and adds requirements for members with Medicare.

(5) The following services are not subject to deductible, coinsurance, or copayment requirements and will be paid at one hundred percent (100%) when provided by a network provider:

(C) A newborn's initial hospitalization until discharge or transfer to another facility if the mother is a Missouri Consolidated Health Care Plan (MCHCP) member at the time of birth[.]; and

(D) Four (4) diabetes education visits with a certified diabetes educator when ordered by a provider.

(14) Medicare.

(A) When MCHCP becomes aware that the member is eligible for Medicare benefits claims will be processed reflecting Medicare coverage.

(B) If a member does not enroll in Medicare when s/he is eligible and Medicare should be the member's primary plan, the member will be responsible for paying the portion Medicare would have paid. An estimate of Medicare Part A and/or Part B benefits shall be made and used for coordination or reduction purposes in calculating benefits. Benefits will be calculated on a claim-submitted basis so that if, for a given claim, Medicare reimbursement would be for more than the benefits provided by this plan without Medicare, the balance will not be considered when calculating subsequent claims for this plan's deductible and out-of-pocket maximum expenses.

(C) If a Medicare primary member chooses a provider who has opted out of Medicare, the member will be responsible for paying the portion Medicare would have paid if the service was performed by a Medicare provider. An estimate of Medicare Part A and/or Part B benefits shall be made and used for coordination or reduction purposes in calculating benefits. Benefits will be calculated on a claim-submitted basis so that if, for a given claim, Medicare reimbursement would be for more than the benefits provided by this plan without Medicare, the balance will not be considered when calculating subsequent claims for this plan's deductible and out-of-pocket maximum expenses.

(D) If a member enrolls in a Medicare Part D plan in addition to coverage under this plan, Medicare Part D becomes the member's primary plan. Such member's benefit must be adjusted in order for the plan to avoid liability for filing claims under the subsidy reimbursement portion of Medicare Part D. This plan will pay primary with appropriate copayments or coinsurance when the member is within the Medicare Part D coverage gap.
